Re: Stone Resources LLC, Burgundy Quarry - North Canyon, Release of Surety  
Bond - \$16,300.00 pursuant to State BLM Decision dtd. Feb 08, 2011.

Dear Mr. Mansfield:

This letter acknowledges receipt of the Utah State Office Decision dated February 8, 2011, which modifies the prior Fillmore Field office Decision. The Utah State Office Decision provides on page 2 paragraph 5 that the Burgundy Plan of Operation submitted by Stone Resources will not even be reviewed until the validity contest is resolved. This make take years. Accordingly it does not make sense to retain a reclamation bond that serves no purpose until some future unknown outcome.

By this Notice Stone Resources is requesting that the reclamation bond in the amount of \$16,300 be released immediately. The Decision does not permit further reclamation where paragraph 5 page 2 states:

"...due to the resource present, Stone may collect samples using hand tools from existing mineral exposures on their mining claims as long as it does not impair or damage paleontological resources. A BLM geologist or paleontologist must be present during sampling. A minimum of 48 hours notice will be necessary so someone from BLM can be present ... The Fillmore Field Office Decision is modified only to allow sampling as specified above."

Since any reclamation would require the use of mechanized equipment it is obvious no further reclamation would be possible under the circumstances imposed by the State Decision. Accordingly, it is requested the present bond in the amount of \$16,300 be released immediately. Stone Resources will repost the bond at such time as the BLM is able to take action on the status of the plan of operations. Should it be

EXHIBIT 'A'

determined that further reclamation is required with respect to the Burgundy quarry under the supervision of a BLM geologist, then constitute this letter as the 48 hour notice required to set a time for supervision of any such reclamation.

Should you concur that no reclamation is required or possible under the conditions imposed I am also requesting that you notify DOGM of the release of the \$16,300 reclamation bond. Please advise me as to when the notice to DOGM to release has been sent or the scheduled appointment time for final reclamation as provided by this 48 hour notice.

Kindest regards

A handwritten signature in dark ink, appearing to read 'W. David Weston', with a large, stylized flourish at the end.

Re: Notice of Withdrawal of small mine NOI S01270117 and Request for Release of Reclamation Bond in amount of \$16,300.

Gentlemen:

Please find enclosed an Application to Revise Notice of Intention to Commence Small Mining Operations - File No. S0270117. The Notice provides for the withdrawal of the NOI based on the BLM's refusal to consider a Plan of Operations for the Site. In addition the State Office of the BLM has imposed restriction that wholly prevent any possible reclamation by not allowing any mechanized equipment on site. Accordingly I have also enclosed an Application for Site and Bond Release requesting you refund the \$16,300 reclamation bond.

As noted by the attachment "A" to the Application I have also submitted a request to the Fillmore office of the BLM to release the reclamation bond. I would appreciate every assistance that your office might afford in obtaining a full release of the bond at the earliest.

Thank you in advance for your attention to this matter. Should you have any questions or should find I can assist further please call me at phone listed above.

Kindest regards

W. David Weston
